61b Geology of the Island of Aquidneck [R. I.]. Am As, Pr 14 : 112–137 (1861)

61c Synchronism of coal beds in the New England and western United States coal basins. Am As, Pr 14 : 138–143 (1861)

61d [On the geology of Vermont, chiefly in connection with the Taconic system (with discussion by W. B. Rogers, and Jules Marcou).] Boston Soc N H, Pr 7 : 426–427 (1861)

61e ... fossils of the red sandstone formation of Vermont. Am J Sc (2) 32 : 454 (1861)

61f (with **Holmes,** Ezekiel.) Preliminary report upon the natural history and geology of the State of Maine, 1861. Me Bd Agr, 6th An Rp : 91–458, Augusta 1861

61g (with **Hitchcock,** E.) Geological map of the United States. Compiled for R. P. Smith's Wall map of the United States [1861?] [not seen]

62 Geology of Maine [includes contributions by G. L. Goodale, O. White, and E. Holmes]. Me Bd Agr, 7th An Rp : 223–430, map (1862)

62a Notes on the geology of Maine. Portland Soc N H, Pr 1 : 72–85, map (1862)

62b Fossils of the Potsdam group in North America. Portland Soc N H, Pr 1 : 87–90 (1862)

62c A new species of *Carpolithes* [*lescurii* from Brandon, Vt.]. Portland Soc N H, Pr 1 : 95–96, il (1862)

62d (with **Holmes,** Ezekiel.) Second annual report upon the natural history and geology of the State of Maine, 1862. Me Bd Agr, 7th An Rp : 217–447, Augusta 1862

64 On the antimony mine of South Ham, C. E. [Quebec]. Am J Sc (2) 37 : 405–406 (1864)

Hitchcock, Charles Henry—Continued.

65 The Albert coal, or albertite, of New Brunswick. Am J Sc (2) 39 : 267–273 (1865)

66 Description of a new reptilian bird from the Trias of Massachusetts [*Tarsodactylus expansus*]. Lyc N H N Y, An 8 : 301–302 (1866)

66a (with **Hitchcock,** Edward.) Elementary geology. New ed, 430 pp, N Y 1866

67 The geological distribution of petroleum in North America. Brit As, Rp 36 : sec 55–57 (1867) G Mag 4 : 34–37 (1867)

67a Relations of geology to theology. Bibliotheca Sacra 24 : 363–388, 429–481 (1867)

68 [On the geology of Andover, Mass.]. Essex Inst, Pr 5 : 157–160 (1868)

68a New American fossil fish from the Devonian. G Mag 5 : 184–185, il (1868)

68b New Carboniferous reptiles and fishes from Ohio, Kentucky, and Illinois. G Mag 5 : 186–187 (1868)

68c The Winooski marble of Colchester, Vt. (*abst*). Am As, Pr 16 : 119 (1868) Am Nat 1 : 621 (1868)

68d The geology of Vermont (*abst*). Am As, Pr 16 : 120–122 (1868)

68e Explanation of a geological map of Maine. Am As, Pr 16 : 123 (1868)

68f The distortion and metamorphosis of pebbles in conglomerates (*abst*). Am As, Pr 16 : 124–127 (1868) Am Nat 1 : 621 (1868) Can Nat n s 3 : 302 (1868)

69 First annual report upon the geology and mineralogy of the State of New Hampshire. 36 pp, map, Manchester 1869

69a Notes on the supposed fossil footmarks in Kansas. Am J Sc (2) 47 : 132–133 (1869)

70 Second annual report upon the geology and mineralogy of the State of New Hampshire. 37 pp, map, Manchester 1870

70a The geology of Vermont. 5 pp, fol, 1870 [not seen; author has stated that only 25 copies were circulated]

70b The lithology of New Hampshire; preliminary catalogue of 250 typical specimens, collected by the geological survey. 20 pp [n p, n d, 1870?]

70c The geology and topography of the White Mountains (*abst*). Am Nat 4 : 567–568 (1870)

70d Geological map [of New York]. *In* Asher & Adams, New topographical atlas and gazetteer of New York : 11–12, N Y [1870] [not seen]

70e The elevation of mountains. The Dartmouth, 4 : 121–124 (1870)

70f The Calaveras skull. Eng M J 9 : 345–346 (1870)

71 Report of the geological survey of the State of New Hampshire showing its progress during the year 1870. 82 pp, Nashua 1871

Hitchcock, Charles Henry—Continued.

71a The distribution of maritime plants in North America; a proof of oceanic submergence in the Champlain period (*abst*). Am As, Pr 19:175–181 (1871) Notice by J. D. Dana, Am J Sc (3) 2:207–208 (1871)

71b Helderberg corals in New Hampshire. Am J Sc (3) 2:148–149 (1871)

71c Geological explorations in the Rocky Mountains, U S. A. G Mag 8:127–128 (1871)

71d Geological description [and geologic map] of Massachusetts. *In* Walling & Gray, Official topographical atlas of Massachusetts: 17–22, map, 1871

72 Report of the geological survey of the State of New Hampshire showing its progress during the year 1871. 56 pp, map, Nashua 1872

72a Norian rocks in New Hampshire. Am J Sc (3) 3:43–47 (1872)

72b [On the fossils of Littleton, N. H.] Boston Soc N H, Pr 14:392 (1872)

72c Description of the geological map [of the United States]. U S Ninth Census 3:754–756 (1872)

73 Report of the geological survey of the State of New Hampshire showing its progress during the year 1872. 15 pp, Nashua 1873

73a Relations of geology to agriculture. N H, Bd Agr, 3d An Rp:171–176, map (1873)

73b Classification of the rocks of New Hampshire [with discussion by C. T. Jackson and T. S. Hunt.] Boston Soc N H, Pr 15:304–309 (1873)

73c Explanation of a new geological map of New Hampshire (*abst*). Am As, Pr 21:134–135 (1873)

73d Recent geological discoveries among the White Mountains, N. H. Am As, Pr 21:135–151 (1873)

73e Footprints in the rocks. Pop Sc Mo 3:428–441, il (1873)

73f The coal areas of the United States of America. G Mag 10:99–101 (1873)

73g (and **Blake,** W. P.) [Description of] geological map of the United States compiled for the Ninth Census, 1872. G Mag 10:371–373 (1873)

73h (and **Blake,** W. P.) Geological map of the United States. Accompanying the report of Rossiter W. Raymond, United States Commissioner of Mining Statistics. Scale 1 inch=90 miles. 1873.

74 (and **Blake,** W. P.) Geological map of the United States. *In* U S Ninth Census, Statistical Atlas pl 13–14 (1874) [Also issued with other publications] Rv, Am J Sc (3) 6:64–66 (1873)

74a Map of the coal fields of the United States. *In* U S Ninth Census, Statistical Atlas pl 11–12 (1874)

Hitchcock, Charles Henry—Continued.

74b The coal measures of the United States. *In* U S Ninth Census, Statistical Atlas: 12–14 (1874)

74c The geology of New Hampshire... Part I, Physical geography. 668 pp, Concord 1874

74d On Helderberg rocks in New Hampshire. Am J Sc (3) 7:468–476, 557–571; 8:68, map (1874)

74e Geological history of Winnipiseogee Lake. Am As, Pr 22 pt 2:120–131 (1874)

74f Note upon the Cretaceous strata of Long Island. Am As, Pr 22 pt 2:131–132 (1874)

74g The geology of Portland. Am As, Pr 22 pt 2:163–175 (1874)

36c Remarks on Professor Stuart's examination of Gen. 1, in reference to geology. Biblical Repository 7 : 448–487 (1836)

37 Fossil footsteps in sandstone and graywacke. Am J Sc 32 : 174–176 (1837)

37a Researches in theoretical geology, by H. T. de la Beche, with preface and notes by Prof. Edward Hitchcock. 342 pp, N Y 1837

Hitchcock, Edward—Continued.

38 Report on a re-examination of the economical geology of Massachusetts. 139 pp, Boston 1838

40 Elementary geology. Amherst 1840 Numerous later editions.

41 Final report on the geology of Massachusetts ; Vol. I, containing economical geology, scenographical geology ; Vol. II, containing scientific geology, elementary geology. Vol I : xii, 1–299, map, Amherst 1841 ; vol II : 301–831, il, map, Northampton 1841

41a First anniversary address before the Association of American Geologists at their second annual meeting in Philadelphia, April 5, 1841. Am J Sc 41 : 232–275 (1841) Reprint, 48 pp. New Haven (1841)

41b [On joints in rocks] (*abst*). Am J Sc 41 : 173 (1841) As Am G, Rp : 25–26 (1843)

42 On the phenomena of drift in this country (*abst* with discussion). Am J Sc 43 : 151–154 (1842) As Am G, Rp : 45–49 (1843)

42a Remarks upon Mr. Murchison's anniversary address ... [explanation of drift phenomena]. Am J Sc 43 : 396–398 (1842)

43 The phenomena of drift, or glacio-aqueous action in North America between the Tertiary and alluvial periods. As Am G, Rp : 164–221 (1843)

43a [On drift phenomena]. Am J Sc 45 : 324–325 (1843)

43b Description of five new species of fossil footmarks, from the red sandstone of the valley of Connecticut River. As Am G, Rp : 254–264, il (1843)

43c Description of several species of fossil plants from the new red sandstone formation of Connecticut and Massachusetts. As Am G, Rp : 294–296, il (1843)

44 Explanation of the geological map attached to the topographical map of Massachusetts. 22 pp, Boston 1844

44a Geological map of Massachusetts. Scale, 5 miles to 1 inch or 1 : 316 800. Inset on Topographical map of Massachusetts [Simeon Borden], Boston 1844

44b The trap tufa or volcanic grit of the valley of the Connecticut River (*abst*). Am J Sc 47 : 103–104 (1844)

44c Dispersion of blocks of stone at the drift period in Berkshire County, Mass. (*abst*). Am J Sc 47 : 132–133 (1844)

44d Report on ichnolithology or fossil footmarks, with description of several new species and the coprolites of birds, and of a supposed footmark from the valley of Hudson River. Am J Sc 47 : 292–322, il ; (*abst*) 113–114 (1844)

44e Discovery of more native copper in the town of Whately in Massachusetts, in the valley of the Connecticut River, with remarks upon its origin. Am J Sc 47 : 322–323 (1844)

Hitchcock, Edward—Continued.

44f (with **Deane,** James.) On the discovery of fossil footmarks. Am J Sc 47: 381–401 (1844)

45 ... on fossil footmarks, the lincolnite, etc. Am J Sc 48: 61–65 (1845)

45a Description of a singular case of the dispersion of blocks of stone connected with drift in Berkshire Co., Mass. Am J Sc 49: 258–265 (1845)

45b An attempt to name, classify, and describe the animals that made the fossil footmarks of New England (*abst*). As Am G, Pr 6: 23–25 (1845)

45c Remarkable facts respecting the magnetic polarity of trap rocks in New England (*abst*). As Am G, Pr 6: 32 (1845)

46 [Notes on the geology of Vermont.] *In* Adams, C. B., Second annual report on the geology of the State of Vermont: 247–252 (1846)

47 Description of two new species of fossil footmarks found in Massachusetts and Connecticut. Am J Sc (2) 4: 46–57, il (1847)

47a On the trap tuff, or volcanic grit, of the Connecticut Valley, with the bearings of its history upon the age of the trap rock and sandstone generally in that valley. Am J Sc (2) 4: 199–207 (1847)

47b [On drift phenomena in New England.] Am J Agr 6: 216 (1847)

48 An attempt to discriminate and describe the animals that made the fossil footmarks of the United States and especially of New England. Am Ac Arts, Mem n s 3: 129–256, il (1848)

50 On the river terraces of the Connecticut Valley, and on the erosions of the earth's surface. Am As, Pr 2: 148–156 (1850)

51 The religion of geology and its connected sciences. 408 pp, Glasgow [1851] 511 pp, Boston 1852 2d ed, 592 pp, Boston 1859

51a On the erosions of the earth's surface, especially by rivers. Brit As, Rp 20: sec 85–87 (1851)

51b On terraces and ancient seabeaches, especially those on the Connecticut River and its tributaries in New England. Brit As, Rp 20: sec 87–88 (1851)

52 Description of a slide on Mount Lafayette, at Franconia, N. H. Am J Sc (2) 14: 73–76 (1852)

52a On the terraces and seabeaches that have been formed since the drift period, especially those along the Connecticut River. Am As, Pr 6: 264–269 (1852)

52b On the geological age of the clay slate of the Connecticut Valley in Massachusetts and Vermont. Am As, Pr 6: 299–300 (1852)

53 Outline of the geology of the globe, and of the United States in particular ... 136 pp, il, maps, Boston 1853 2d ed, Boston 1854 3d ed, Boston 1856

Hitchcock, Edward—Continued.

53a Report on certain points in the geology of Massachusetts. Massachusetts, Commonwealth, House ... no 39: 44 pp, il, maps [Boston 1853]

53b Report on the coal field of Bristol Co. and of Rhode Island. *In* Mass, H R no 45: 20 pp [Boston? 1853]

53c Notes upon the specimens of rocks and minerals collected. *In* Marcy, R. B., Exploration of the Red River of Louisiana in the year 1852; U S, 32d Cong 2d sess, S Ex Doc 54: 163–178 (1853); U S, 33d Cong 1st sess, H Ex Doc: 140–155 (1854)

53d Description of a brown coal deposit in Brandon, Vermont, with an attempt to determine the geological age of the principal hematite ore beds in the United States. Am J Sc (2) 15: 95–104, il (1853)

53e The coal field of Bristol County and of Rhode Island. Am J Sc (2) 16: 327–336 (1853) M Mag 1: 582–591 (1853)

54 [On fossil footmarks of the Connecticut Valley.] Boston Soc N H, Pr 4: 378–379 (1854)

56 On a new fossil fish and new fossil footmarks. Am J Sc (2) 21: 96–100 (1856)

56a Description of a large boulder in the drift of Amherst, with parallel striae upon four sides. Am J Sc (2) 22: 397–400 (1856)

56b Description of ... the sandstone and trap of Connecticut River valley in Massachusetts. Am As, Pr 9: 225–227 (1856)

56c Additional facts respecting the tracks of the *Otozoum moodii* on the Liassic sandstone of the Connecticut Valley. Am As, Pr 9: 228 (1856)

56d Account of the discovery of the fossil jaw of an extinct family of sharks, from the coal formation [Park Co., Ind.]. Am As, Pr 9: 229–230, il (1856)

57 Illustrations of surface geology. Smiths Contr Knowl 9 art 3: 155 pp, maps (1857) 2d ed, 155 pp, maps, Amherst 1860

57a Report on the geological survey of the State of Vermont. 12 pp, Montpelier 1857

57b [On impressions in the sandstone from Turner's Falls on Connecticut River, Mass.] Boston Soc N H, Pr 6: 111 (1857)

57c [On fossil fruits from Brandon lignite deposits, Vt.] Am Ac Arts, Pr 3: 3 (1857)

57d On the age and dip of the Connecticut River sandstones, and the intercalation of the associated trap (*abst*). Edinb N Ph J n s 6: 354 (1857)

58 Ichnology of New England; a report on the sandstone of the Connecticut Valley, especially its footmarks... xii, 220 pp, il, map, Boston 1858

58a Report on the geological survey of the State of Vermont. 13 pp, Burlington 1858

Hitchcock, Edward—Continued.

59 Preliminary report on the geology of Vermont. 16 pp, Montpelier 1859

59a [Catalogue of the collection of rocks, minerals, and fossils in the State cabinet of Massachusetts.] Mass Bd Agr, An Rp 6 : App iii–lxix (1859)

59b Devonian granites and Taconic rocks (*abst* with discussion). Can Nat 4 : 298 (1859)

60 [On distorted pebbles in the conglomerate of Vermont (with discussion by C. T. Jackson).] Boston Soc N H, Pr 7 : 353–354 (1860)

61 (and others) Report on the geology of Vermont; descriptive, theoretical, economical, and scenographical. Vol. 1, 558 pp, vol. 2, 982 pp, maps, il, Claremont N H., 1861 Rv and summary by E. Billings, Am J Sc (2) 33 : 416–420 (1862)

61a Remarks upon certain points in ichnology. Am As, Pr 14 : 144–156, il (1861)

61b On certain conglomerated and brecciated trachytic dikes in the lower Silurian rocks of Shelburne, in Vermont... Am As, Pr 14 : 156–158 (1861)

61c Additional facts respecting the *Clathropteris* of East Hampton, Mass. Am As, Pr 14 : 158–159 (1861)

61d On the conversion of certain conglomerates into talcose and micaceous schists and gneiss, by the elongation, flattening, and metamorphosis of the pebbles and the cement. Am J Sc (2) 31 : 372–392 (1861)

61e (and **Hitchcock,** C. H.) Geological map of the United States. Compiled for R. P. Smith's Wall map of the United States [not seen]

63 Reminiscences of Amherst College... Northampton, Mass., 1863

14 The Eden Ridge coal field, Coos Co., Oreg. U S G S, B 541 : 399–418, map (1914)

14a (with **Rogers,** G. S.) The use of thickness contours in the valuation of lenticular coal beds. Ec G 9 : 707–729 (1914)

15 Coal. U S G S, Min Res 1914 pt 2 : 587–746 ; 1915 pt 2 : 345–513 ; 1916 pt 2 : 901–991 (1915–8)

17 (with **Smith,** G. O.) The cost of coal. Science n s 44 : 763–772 (1916) Am M Cong, 19th An Sess, Rp Pr : 452–464 (1917) Ec G 12 : 42–55 (1917)

POLITECHNIKA GDAŃSKA ZAKŁAD GEOLOGII

Lesley, J. Peter (1819–1903).

55 The Cumberland coal fields, Tenn. M Mag 5 : 45–52 (1855)

56 Manual of coal and its topography... 224 pp, Phila 1856

57 On the Broadtop coal basin in central Pennsylvania. Am As, Pr 10 pt 2 : 78–81 (1857) *Abst,* Edinb N Ph J n s 5 : 363–364 (1857) ; Can J n s 2 : 479–480 (1857)

57a (with **Hall,** James) Map illustrating the general geological features of the country west of the Mississippi River. [1857]

58 [On a curious reverse drainage near Ironton, Ohio.] Ac N Sc Phila, Pr 1858 : 8–9

58a On three comparative sections of the Coal Measures in Kentucky, and in eastern and western Pennsylvania. Am As, Pr 11 pt 2 : 39–42 (1858)

59 The iron manufacturer's guide to the furnaces, forges, and rolling mills of the United States... 772 pp, N Y 1859

60 [Boulders in the highlands of Orange Co., N. Y.] Ac N Sc Phila, Pr 1860 : 97

60a [On the age of the White Mountains of New Hampshire.] Ac N Sc Phila, Pr 1860 : 363–364

61 Note on Mr. Lesquereux's Table of comparative sections of Coal Measures. Am J Sc (2) 32 : 281–285 (1861)

62 [On the structure of a primary limestone bed on the Brandywine above Chad's ford, in illustration of the tongue structure of folded anticlinals.] Am Ph Soc, Pr 8 : 281–283 (1862)

62a On the coal formation of southern Virginia. Am Ph Soc, Pr 9 : 30–38 (1862)

63 On the Coal Measures of Cape Breton, N. B. [in error for N. S.]. Am Ph Soc, Pr 9 : 93–109, 167–170 (1863) (Revised) Am J Sc (2) 36 : 179–196 (1863)

63a [On a bitumen vein in Wood Co., W. Va.] Am Ph Soc, Pr 9 : 183–197 (1863)

65 On the recent discovery of lignite in Pennsylvania [and relations to the iron ore beds]. Am Ph Soc, Pr 9 : 463–482, map (1865)

65a On petroleum in the eastern coal field of Kentucky and records of borings in Pennsylvania. Am Ph Soc, Pr 10 : 33–68, 187–191, map (1865)

65b Note on the geological age of the New Jersey Highlands as held by Prof. H. D. Rogers. Am J Sc (2) 39 : 221–223 (1865)

66 [Borings in the petroleum region of Pennsylvania.] Am Ph Soc, Pr 10 : 227–241, map (1866)

69 Notes on a map intended to illustrate five types of earth surface in the United States, between Cincinnati and the Atlantic seaboard. Am Ph Soc, Tr n s 13 : 305–312, map (1869)

Lesley, J. Peter—Continued.

69a Section across the Alleghany Mountains, to illustrate the proportionate plication of the earth's surface to its radius. Am Ph Soc, Pr 11 : 115 (1869)

71 Recent exposure of a bed of solid brown hematite iron ore in middle Pennsylvania. Am Ph Soc, Pr 12 : 16 (1871)

71a Note on an apparent violation of the law of regular progressive de-bituminization of the American coal beds coming east. Am Ph Soc, Pr 12 : 125–138, maps (1871)

71b Note on the titaniferous iron ore belt, near Greensboro, N. C. Am Ph Soc, Pr 12 : 139–158, map (1871)

72 Note on a fine upthrow fault at Embreeville Furnace in east Tennessee. Am Ph Soc, Pr 12 : 444–457, map (1872)

73 The geological structure of Tazewell, Russell, and Wise cos., in Virginia. Am Ph Soc, Pr 12 : 489–513, map (1873)

73a A record of fourteen oil wells at Brady's Bend, Armstrong Co., Pa. Am Ph Soc, Pr 12 : 562–570 (1873)

73b The iron ores of the South Mountain, Cumberland Co., Pa. Am Ph Soc, Pr 13 : 3–21, map (1873)

73c ... Dunning's Creek fossil iron ore [Bedford Co., Pa.]. Am Ph Soc, Pr 13 : 156–168, map (1873)

73d [Iron ores of middle Pennsylvania.] Am Ph Soc, Pr 13 : 264 (1873)

73e A study of the structure and erosion of Brush Mt., in Blair Co., Pa. Am Ph Soc, Pr 13 : 503–504, map (1873)

73f Topographical map of Pennsylvania, colored for the principal geological formations. *In* Macfarlane, James, The coal regions of America..., N Y 1873

74 The brown hematite iron ore banks of that part of Nittany Valley...in Huntingdon and Centre cos., Pa... 99 pp, maps, Phila 1874

74a A collection of occasional surveys of iron, coal, and oil districts in the United States... Phila 1874

74b [On folding and faulting in middle Pennsylvania.] Am Ph Soc, Pr 14 : 2–4 (1874)

74c The brown hematite ore banks of Spruce Creek, Warrior's Mark Run, and Half Moon Run, in Huntingdon and Centre cos., Pa... Am Ph Soc, Pr 14 : 19–83, 102–107, map (1874)

75 [Report of progress for the year 1874 of the Second Geological Survey of Pennsylvania.] xvii pp [1875]

75a Notes on the comparative geology of northeastern Ohio, northwestern Pennsylvania, and western New York. Pa G S, 2d, I : 57–108 (1875)

75b On a map and profile of coal and oil measures along Slippery Rock Creek, in Lawrence Co., Pa. Pa G S, 2d, J : 90–104, map (1875)

Lesley, J. Peter—Continued.

75c Coal beds in the Subcarboniferous of Pennsylvania. Am J Sc (3) 10 : 153–154 (1875)

75d On former mountain ranges in southeastern Pennsylvania. Am Ph Soc, Pr 14 : 436–437 (1875)

76 Historical sketch of geological explorations in Pennsylvania and other states; with an appendix containing the annual reports of the State geologist to the board of commissioners. Pa G S, 2d, A : 200, xxvi pp, Harrisburg 1876

76a The Boyd's Hill gas well at Pittsburgh [Pa.]. Pa G S, 2d, L : 217–237 (1876)

76b [On Ashburner's discovery of the age of the coal beds No. X in Huntingdon Co., Pa.] Am Ph Soc, Pr 14 : 638–639 (1876)

76c [On glacial blocks in West Philadelphia, Pa.] Am Ph Soc, Pr 14 : 644–645 (1876)

76d On the "Fond des Mers" of M. Delesse. Am Ph Soc, Pr 16 : 240 (1876)

77 Oil well records... of Pennsylvania. Am Ph Soc, Pr 16 : 346–380 (1877)

77a Memoir of Edward Hitchcock, 1793–1864. Nat Ac Sc, Biog Mem 1 : 113–134 (1877)

78 Preface [to report by J. H. Dewees on the fossil iron ore beds of the Juniata district]. Pa G S, 2d, F : vii–xlix (1878)

78a (and others) Report of progress in Bradford and Tioga cos. Pa G S, 2d, G : xii, 271 pp, maps (1878)

78b On a series of chemical analyses of Siluro-Cambrian limestone beds in Cumberland Co., Pa. Am Ph Soc, Pr 17 : 260–266 (1878)

78c On terrace levels in Pennsylvania. Am J Sc (3) 16 : 68–69 (1878)

79 Note [on the classification of coals]. Pa G S, 2d, MM : 144–157 (1879)

79a Notes on a series of analyses of the dolomitic limestone rocks of Cumberland Co., Pa. Pa G S, 2d, MM : 311–361 (1879)

79b On the drift phenomena of the United States. Am Ph Soc, Pr 18 : 85–86 (1879)

79c Notes on a series of analyses of the dolomitic limestone rocks of Cumberland Co., Pa. Am Ph Soc, Pr 18 : 114–120 (1879)

79d On the gas well at Murraysville, in Westmoreland Co., Pa. Am Ph Soc, Pr 18 : 207–208 (1879)

79e Origin of pipe ore. G Mag (2) 6 : 459–460 (1879)

80 (and others) The geology of Clinton Co. Pa G S, 2d, G4 : xiv, 183 pp, maps (1880)

80a Sur les limites du terrain carbonifère et du terrain permien en Amérique d'après l'étude de leurs flores. Int G Cong, Paris 1878, C R : 130–135 (1880)

Lesley, J. Peter—Continued.

80b A Hudson River fossil plant in the roofing slate that is associated with chlorite slate and metamorphic limestone in Maryland, adjoining York and Lancaster counties, Pa. Am J Sc (3) 19 : 71–72 (1880)

80c Ancient buried river channel crossing the Allegheny River. Am Ph Soc, Pr 18 : 354 (1880)

80d Slab of roofing slate covered with casts of *Buthotrephis flexuosa*. Am Ph Soc, Pr 18 : 365–366 (1880)

81 [Remarks on the duplication of the Mountain limestone and the Mauch Chunk red shale formations.] Am Ph Soc, Pr 19 : 110 (1881)

81a [Remarks on Prof. Stevenson's conclusions respecting the date of the great Virginia faults.] Am Ph Soc, Pr 19 : 155–156 (1881) The Virginias 2 : 92–93 (1881)

81b Notes on the models exhibited at the meeting Nov. 19, 1880 [Pa.] Am Ph Soc, Pr 19 : 193–194 (1881)

81c Remarks on Prof. I. C. White's paper on the place of the Sharon conglomerate.] Am Ph Soc, Pr 19 : 202–203 (1881)

81d (with **Jones**, N. F.) Drillings for coal in Sergeant Township, McKean Co. Pa G S, 2d, R Appendix A : 35 pp (1881); RR : 327–362 (1885)

82 Glacial map of the Pocono Mountain Plateau and Delaware River Valley in Pike and Monroe cos. Pa G S, 2d, G6 : xv–xix, map (1882)

82a [Discussion of the glacial theory.] Am Ph Soc, Pr 20 : 95–101 (1882)

82b On high-level drift. G Mag (2) 9 : 334–336 (1882)

83 (and others) The geology of Chester Co. Pa G S, 2d, C 4 : 394 pp, maps (1883) Rv by T. D. Rand, Franklin Inst, J 116 or (3) 86 : 226–229 (1883)

83a (and others) The geology of Lehigh and Northampton cos. Pa G S, 2d, D3, 1 : xxiv, 283 pp, atlas (1883)

83b Prefatory letter [to report of I. C. White on the Susquehanna River region]. Pa G S, 2d, G7 : v–xxvi (1883)

83c Note on the progress of the Second Geological Survey of Pennsylvania. Am Ph Soc, Pr 20 : 537–544 (1883)

83d [On the exact equivalency of "Catskill" and "Ponent."] Am Ph Soc, Pr 20 : 673–675 (1883)

83e Wright's ice dam at Cincinnati. Science 2 : 436 (1883)

84 [On quartz pebbles found in coal near Cannelton, Beaver Co., Pa.] Am Ph Soc, Pr 21 : 344 (1884)

84a [Remarks on the geology of southwestern Virginia.] Am Ph Soc, Pr 21 : 703–704 (1884)

85 A geological hand atlas of the sixty-seven counties of Pennsylvania. Pa G S, 2d, X : 112 pp, maps (1885)

Lesley, J. Peter—Continued.

86 Annual report of the Geological Survey of Pennsylvania for 1885 : xxxix, 769 pp, maps, Harrisburg 1886; for 1886, 4 pts : 1636 pp, maps (1887); for 1887 : 105 pp (1889)

86a The coal beds and fire clays of the Wellersburg basin in Somerset Co. Pa G S, An Rp 1885 : 227–239 (1886)

86b (and **D'Invilliers, E. V.**) Report on the Cornwall iron ore mines, Lebanon Co. Pa G S, An Rp 1885 : 491–570, map (1886)

86c Some general considerations respecting the origin and distribution of the Delaware and Chester kaolin deposits. Pa G S, An Rp 1885 : 571–591 (1886)

86d ... pressure, quantity, composition, and fuel value of rock gas or the natural gas of the oil regions of Pennsylvania. Pa G S, An Rp 1885 : 657–680 (1886)

86e The geology of the Pittsburgh coal region. Am I M Eng, Tr 14 : 618–656, map (1886)

86f Dr. Orton's Ohio gas and oil report. Science 8 : 233–235 (1886)

87 Summary of the reports of the State geologist from 1874–1887. Pa G S (2) : 18 pp, Harrisburg 1887

89 (and others) Catalog of the geological museum, Part III [fossils, minerals, etc.]. Pa G S, 2d, OOO : 260 pp (1889)

89a A dictionary of the fossils of Pennsylvania and neighboring States... Pa G S, 2d, P4 : xiv, 1283, xiii pp [in 3 vols], il (1889–90)

90 Obituary notice; Charles Albert Ashburner [1854–1889]. G Soc Am, B 1 : 521–523 (1890)

90a Obituary notice of Charles Albert Ashburner. Am Ph Soc, Pr 28 : 53–59 (1890)

90b Biographical notice of Charles A. Ashburner. Am I M Eng, Tr 18 : 365–370 (1890)

90c Obituary notice of Leo Lesquereux. Am Ph Soc, Pr 28 : 65–70 (1890)

91 On the Grapeville gas wells [Westmoreland Co., Pa.] Am Ph Soc, Pr 29 : 11–16 (1891)

91a On an important boring through 2000 feet of Trias in eastern Pennsylvania. Am Ph Soc, Pr 29 : 20–24 (1891)

91b Artesian well in Lower Silurian limestone at Parkesburg, Pa. Am Ph Soc, Pr 29 : 45–47 (1891)

92 A summary description of the geology of Pennsylvania [in part by E. V. D'Invilliers and others]. Pa G S, Final Rp, 3 vols, 2588 pp, il, atlas (1892–5)

95 Memoir of Leo Lesquereux, 1806–1889. Nat Ac Sc, Biog Mem 3 : 187–212 (1895)

Lesley, J. Peter—Continued.

39 Elements of geology. 1st Am. from 1st L ed, 316 pp, Phila 1839

41 Remarks on some fossil and recent shells collected ... in Canada. G Soc London, Pr 3 : 119–120 (1839) ; Tr (2) 6 : 135–141, il (1841)

42 Eight lectures on geology... 56 pp, N Y 1842 52 pp, N Y 1843

42a On some of the phenomena connected with the Coal Measures and older strata of Pennsylvania. Geologist 1842 : 25–27 G Soc London, Pr 3 : 554–558 (1842) Ph Mag (3) 21 : 306–309 (1842)

42b A memoir on the recession of the Falls of Niagara. G Soc London, Pr 3 : 595–602 (1842) Geologist 1842 : 122–123

42c On the Tertiary formations and their connexion with the chalk in Virginia and other parts of the United States. G Soc London, Pr 3 : 735–742 (1842) Geologist 1842 : 213–218

42d On the fossil footprints of birds and impressions of raindrops in the valley of the Connecticut. G Soc London, Pr 3 : 793–796 (1842) Am J Sc 45 : 394–397 (1843)

43 On the ridges, elevated beaches, inland cliffs, and boulder formations of the Canadian lakes and valley of St. Lawrence. G Soc London, Pr 4 : 19–22 (1843) Am J Sc 46 : 314–317 (1844) Ph Mag (3) 23 : 183–186 (1843) Geologist 1843 : 130–134

43a On the Tertiary strata of the Island of Marthas Vineyard in Massachusetts. G Soc London, Pr 4 : 31–33 (1843) Am J Sc 46 : 318–320 (1844) Ph Mag (3) 23 : 187–189 (1843) Geologist 1843 : 160–163

43b On the geological position of the *Mastodon giganteum* and associated fossil remains at Bigbone Lick, Ky., and other localities in the United States and Canada. G Soc London Pr 4 : 36–39 (1843) An Mag N H 12 : 125–128 (1843) Am J Sc 46 : 320–323 (1844) Ph Mag (3) 23 : 190–193 (1843) Geologist 1843 : 169–174

43c On the upright fossil trees found at different levels in the coal strata of Cumberland, N. S. G Soc London, Pr 4 : 176–178 (1843) Am J Sc 45 : 353–356 (1843)

Lyell, Charles—Continued.

43d On the coal formation of Nova Scotia and on the age and relative position of the gypsum and accompanying marine limestones. G Soc London, Pr 4 : 184–186 (1843) Am J Sc 45 : 356–359 (1843)

44 Notes on the Cretaceous strata of New Jersey and parts of the United States bordering the Atlantic. Am J Sc 47 : 213–214 (1844) G Soc London, Q J 1 : 55–60 (1845)

44a On the probable age and origin of a bed of plumbago and anthracite occurring in mica schist near Worcester, Mass. Am J Sc 47 : 214–215 (1844) G Soc London, Q J 1 : 199–202 (1845)

45 Travels in North America in the years 1841–42, with geological observations on the United States, Canada, and Nova Scotia. 2 vols, 251, 221 pp, N Y 1845 2 vols, 316, 272 pp, map, L 1845 German ed, 395 pp, Halle 1846 [Also later editions]

45a On the Miocene Tertiary strata of Maryland, Virginia, and of North and South Carolina. G Soc London, Q J 1 : 413–429, il (1845)

45b Observations on the White Limestone and other Eocene or older Tertiary formations of Virginia, South Carolina, and Georgia. G Soc London, Q J 1 : 429–442, il (1845)

46 [On the Eocene of Alabama and Georgia]. Am J Sc (2) 1 : 313–315 (1846)

46a Coal field of Tuscaloosa, Ala. Am J Sc (2) 1 : 371–376 (1846)

46b On the evidence of fossil footprints of a quadruped allied to the *Cheirotherium* in the coal strata of Pennsylvania. Am J Sc (2) 2 : 25–29 (1846)

46c Observations on the fossil plants of the coal field of Tuscaloosa, Ala. Am J Sc (2) 2 : 228–230 (1846)

46d Notice on the coal fields of Alabama. G Soc London, Q J 2 : 278–282 (1846)

46e On the newer deposits of the Southern States of North America. G Soc London, Q J 2 : 405–410 (1846)

46f On footmarks discovered in the Coal Measures of Pennsylvania. G Soc London, Q J 2 : 417–420 (1846)

47 On the structure and probable age of the coal field of the James River, near Richmond, Va. G Soc London, Q J 3 : 261–280, il (1847)

47a On the delta and alluvial deposits of the Mississippi, and other points in the geology of North America, observed in the years 1845, 1846. Brit As, Rp 16 : sec 117–119 (1847) Am J Sc (2) 3 : 34–39 (1847)

47b On the alleged coexistence of man and the *Megatherium* [Natchez, Miss.]. Am J Sc (2) 3 : 267–269 (1847)

47c On the relative age and position of the so-called nummulite limestone of Alabama. Am J Sc (2) 4 : 186–191 (1847) G Soc London, Q J 4 : 10–16 (1848)

Lyell, Charles—Continued.

48 On the fossil footmarks of a reptile in the coal formation of the Alleghany Mountains. Athenaeum 1848 : 166–167

49 A second visit to the United States of North America. 2 vols, 273, 287 pp, N Y 1849 ; L 1849 2d ed, 2 vols, L 1855. 3d ed, L 1855

49a Notes on some recent footprints on red mud in Nova Scotia. G Soc London, Q J 5 : 344 (1849)

51 Lower Silurian reptile in Canada. Am J Sc (2) 12 : 120–121 (1851)

51a On impressions of raindrops in ancient and modern strata. R Inst, Pr 1 : 50–53 (1851)

51b On fossil rain marks of the recent, Triassic, and Carboniferous periods. G Soc London, Q J 7 : 238–247 (1851)

53 A manual of elementary geology ... [From the 4th L ed], 512 pp, N Y 1853 [From the 5th L ed], 647 pp, N Y 1855

53a On the discovery of some fossil reptilian remains, and a land shell in the interior of an erect fossil tree in the Coal Measures of Nova Scotia, with remarks on the origin of coal fields and the time required for their formation. R Inst, Pr 1 : 281–288 (1853) Am J Sc (2) 16 : 33–41 (1853)

53b (and **Dawson,** J. W.) On the remains of a reptile (*Dendrerpeton acadianum* Wyman and Owen) and of a land shell discovered in the interior of an erect fossil tree in the Coal Measures of Nova Scotia. G Soc London, Q J 9 : 58–63, il (1853)

54 Special report on the geological, topographical, and hydrographical departments of the [New York Industrial] Exhibition. Return ... House of Commons ... Feb. 6, 1854 : 50 pp, L 1854

54a (and **Hall,** J.) Rapport sur la partie géologique de l'exposition de New York. An Mines (5) 6 : 1–83 (1854) [Transl of 54]

55 Extrait d'un rapport sur la partie géologique de l'exposition de New York en 1853. Soc G France, B (2) 12 : 400–428 (1855)

55a On certain trains of erratic blocks on the western borders of Massachusetts, United States. R Inst, Pr 2 : 86–97 (1855)

63 The geological evidences of the antiquity of man ... 518 pp, Phila 1863

69 [Rate of formation of delta of the Mississippi.] G Soc London, Q J 25 : 11 (1869)

71 The student's elements of geology. 624 pp, L 1871 640 pp, N Y 1886

71a Oolite coal field of Virginia [copied by James Greer, from a MS, by Charles Lyell]. 3 pp [priv pub, Dayton 1871?]

96 The student's Lyell; a manual of elementary geology; edited by John W. Judd. 635 pp, N Y 1896

Lykins, William H. R.

84 List of fossils in Kansas City [Mo.] and vicinity. Kansas City Rv Sc 8 : 72–77 (1884)

Lyle, D. A.

78 The springs of southern Nevada. Am Nat 12 : 18–27 (1878)

Lyman, Benjamin Smith (1835–1920).

66b Note on the affinities of the Bellerophontidae. Chicago Ac Sc, Pr 1 : 9–11 (1866)

66c (and **Worthen,** A. H.) Descriptions of Paleozoic fossils from the Silurian, Devonian, and Carboniferous rocks of Illinois, and other Western States. Chicago Ac Sc, Pr 1 : 11–23 (1866)

66d (and **Worthen,** A. H.) Contributions to the paleontology of Illinois and other Western States. Ac N Sc Phila, Pr 1866 : 251–275

67 Remarks on the geology of the Mackenzie River, with figures and descriptions of fossils from that region... Chicago Ac Sc, Tr 1 : 61–114, il (1867)

67a Note on the use of the name Hudson River group. Am J Sc (2) 43 : 256–257 (1867)

67b Note on *Bellinurus danae* from the Illinois Coal Measures. Am J Sc (2) 43 : 257–258 (1867)

67c Note on a new genus of fossil Crustacea [*Euproops*]. Am J Sc (2) 43 : 394–395 (1867)

67d On the punctate shell structure of *Syringothyris.* Am J Sc (2) 43 : 407–408 (1867)

67e Remarks on Prof. Geinitz's views respecting the upper Paleozoic rocks and fossils of southeastern Nebraska. Am J Sc (2) 44 : 170–187, 282–283, 327–339 (1867)

Meek, Fielding Bradford—Continued.

67f Note on the genus *Palaeacis* Haime, 1860 (=*Sphenopoterium* M. and W., 1866). Am J Sc (2) 44 : 419–420 (1867)

68 Paleontology : Lower Silurian species ; Upper Silurian species ; Devonian species ; Carboniferous species. Ill G S 3 : 291–565, il (1868)

68a (and **Worthen,** A. H.) Preliminary notice of a scorpion, a *Eurypterus?*, and other fossils from the Coal Measures of Illinois. Am J Sc (2) 45 : 19–28 (1868)

68b ... a remarkable new genus of corals, probably typical of a new family. Am J Sc (2) 45 : 62–64 (1868)

68c Note on the shell structure and family affinities of the genus *Aviculopecten*. Am J Sc (2) 45 : 64–65 (1868)

68d Note on *Ethmophyllum* and *Archeocyathus*. Am J Sc (2) 46 : 144 (1868)

68e (and **Worthen,** A. H.) Remarks on some types of Carboniferous Crinoidea with descriptions of new genera and species of the same, and of one echinoid. Ac N Sc Phila, Pr 1868 : 335–359

69 (and **Worthen,** A. H.) Notes on some points in the structure and habits of Paleozoic Crinoidea. Ac N Sc Phila, Pr 1868 : 323–334 (1869) Am J Sc (2) 48 : 23–40 (1869) Can Nat n s 4 : 434–452 (1869)

69a (and **Worthen,** A. H.) Descriptions of new Crinoidea and Echinoidea, from the Carboniferous rocks of the Western States, with a note on the genus *Onychaster*. Ac N Sc Phila, Pr 1869 : 67–83

69b (and **Worthen,** A. H.) Remarks on the Blastoidea, with descriptions of new species. Ac N Sc Phila, Pr 1869 : 83–91

69c (and **Worthen,** A. H.) Descriptions of new Carboniferous fossils from the Western States. Ac N Sc Phila, Pr 1869 : 137–172

69d F. B. Meek's reply to Prof. Swallow. 9 pp, n p, n d [Washington 1869(?)] [priv pub]

70 List of fossils from Utah, with some notes. U S G Expl 40th Par (King), 3 : 459–466 (1870)

70a (and **Worthen,** A. H.) Note on the relations of *Synocladia* King 1849, to the proposed genus *Septopora* Prout 1858. Ac N Sc Phila, Pr 1870 : 15–18

70b (and **Worthen,** A. H.) Descriptions of new species and genera of fossils from the Paleozoic rocks of the Western States. Ac N Sc Phila, Pr 1870 : 22–56

70c Descriptions of fossils collected by the U. S. Geological Survey... [Rocky Mountains region] Ac N Sc Phila, Pr 1870 : 56–64

70d A preliminary list of fossils collected by Dr. Hayden in Colorado, New Mexico, and California, with brief descriptions of a few of the new species. Am Ph Soc, Pr 11 : 425–431 (1870)

Meek, Fielding Bradford—Continued.

70e Geology of the line of the great Pacific railway. G Mag 7 : 163–164 (1870)

71 Preliminary paleontological report, consisting of lists of fossils, with descriptions of some new types, etc. U S G S Wyo (Hayden), Prel Rp [4] : 287–318 (1871)

71a Preliminary notice of a new species of *Trimerella* from Ohio. Am J Sc (3) 1 : 305–306 (1871)

71b On some new Silurian [Ordovician] crinoids and shells. Am J Sc (3) 2 : 295–299 (1871)

71c Remarks on the genus *Lichenocrinus*. Am J Sc (3) 2 : 299–302 (1871) An Mag N H (4) 8 : 341–345 (1871)

71d Descriptions of some new types of Paleozoic shells. Am J Conch 7 : 4–10, il (1871)

71e Descriptions of new species of invertebrate fossils from the Carboniferous and Devonian rocks of Ohio. Ac N Sc Phila, Pr 1871 : 57–93

71f Descriptions of new species of fossils from Ohio and other Western States and Territories. Ac N Sc Phila, Pr 1871 : 159–184

71g Notice of a new brachiopod from the lead-bearing rocks at Mine Lamotte, Mo. Ac N Sc Phila, Pr 1871 : 185–187, il

71h Lists of Carboniferous fossils from West Virginia ; descriptions of new species. W Va Univ, Rp Bd Reg 3 : 68–73 (1871)

72 Report on the paleontology of eastern Nebraska with some remarks on the Carboniferous rocks of that district. *In* Hayden, F. V., Final report of the United States Geological Survey of Nebraska... (U S, 42d Cong 1st sess, H Ex Doc 19) : 83–239, il (1872)

72a Preliminary list of the fossils collected... in Utah and Wyoming Territories, with descriptions of a few new species. U S G S Mont (Hayden), An Rp 5 : 373–377 (1872)

72b Supplementary note on the genus *Lichencrinus*. Am J Sc (3) 3 : 15–17 (1872) An Mag N H (4) 9 : 247–248 (1872)

72c Descriptions of two new starfishes and a crinoid from the Cincinnati group of Ohio and Indiana. Am J Sc (3) 3 : 257–262 (1872)

72d Descriptions of new species of fossils from the Cincinnati group of Ohio. Am J Sc (3) 3 : 423–428 (1872)

72e Descriptions of a few new species and one new genus of [Ordovician and] Silurian fossils from Ohio. Am J Sc (3) 4 : 274–281 (1872)

72f Descriptions of new western Paleozoic fossils, mainly from the Cincinnati group of the Lower Silurian series of Ohio. Ac N Sc Phila, Pr 1871 : 308–336 (1872)

Meek, Fielding Bradford—Continued.

73 Preliminary paleontological report, consisting of lists and descriptions of fossils, with remarks on the ages of the rocks in which they were found, etc. U S G S Terr (Hayden), An Rp 6 : 429–518 (1873)

73a (and **Worthen,** A. H.) Descriptions of invertebrates from Carboniferous system. Ill G S 5 : 321–619, il (1873)

73b Descriptions of invertebrate fossils of the Silurian and Devonian systems. Ohio G S, 1 pt 2 Paleontology : 1–243, il (1873)

73c Miller, Morgan, and Saline cos. *In* Reports on the geological survey of the State of Missouri, 1855–1871 : 111–188, maps, Jefferson City 1873

73d Spergen Hill fossils identified among specimens from Idaho. Am J Sc (3) 5 : 383–384 (1873)

74 *Pleurotomaria taggarti* [Colo.]. U S G Geog S Terr (Hayden), An Rp [7] : 231 (1874)

74a Notes on some of the fossils figured in the recently-issued fifth volume of the Illinois State geological report. Am J Sc (3) 7 : 189–193, 369–376, 484–490, 580–584 (1874)

74b New genus *Euchondria* Meek. Am J Sc (3) 7 : 445 (1874)

74c On the age of the lignitic formation of the Rocky Mountain region. Am J Sc (3) 8 : 459–463 (1874)

75 Note on some fossils from near the eastern base of the Rocky Mountains, west of Greeley and Evans, Colo., and others from about two hundred miles farther eastward, with descriptions of a few new species. U S G Geog S Terr (Hayden), B [1] (2) 1 : 39–47 (1875)

75a [Description of *Olenus* (*Olenellus*) *gilberti* Meek.] *In* Gilbert, G. K., Report on the geology of portions of Nevada, Utah, California, and Arizona (U S Geog G S W 100th Mer), 3 : 182–183 (1875)

75b (and **Worthen,** A. H.) Descriptions of invertebrates. Ill G S 6 : 489–532, il (1875)

75c A report on some of the invertebrate fossils of the Waverly group and Coal Measures of Ohio. Ohio G S, Rp 2 pt 2 Paleontology : 269–347, il (1875)

76 A report on the invertebrate Cretaceous and Tertiary fossils of the upper Missouri country. U S G S Terr (Hayden), Rp 9 : lxiv, 629 pp, il (1876)

Peet, Stephen D.

91 Natural and artificial terraces. Am G 7 : 113–117 (1891)

91a The flood plain and the mound builders. Am G 8 : 44–51 (1891)

Peile, A. J.

13 Notes on the geology of the Bermuda Islands. G Mag (5) 10 : 413–414 (1913)

Peirce, Benjamin.

58 On the formation of continents (*abst*). Can J n s 3 : 69–70 (1858)

Pellitero, Valentín.

95 Apuntes geológicos referentes al itinerario de Sagua de Tánamo á Santa Catalina de Guantánamo en la Isla de Cuba. España, Com Mapa Geol, B 20 : 89–98, map (1895)

Pelton, E. F.

12 (and **Irwin,** D. D.) The plane table in geologic mapping (discussion). Ec G 7 : 778–783 (1912)

Pemberton, J. R.

18 A résumé of the past year's development in Kentucky [oil fields] from a geologic standpoint. Am As Petroleum G, B 2 : 38–52 (1918)

Peña, Marcelo.

16 El mineral de Santa Rosa, Muzquiz, Coahuila [México]. Bol Minero 2 : 305–312 (1916)

Penck, Albrecht.

98 Der Illecillewaetgletscher im Selkirkgebirge. Deut u Österr Alpenverein, Zs 29 : 55–60 (1898) Transl, by D. R. Keys, Can Inst, Pr n s 2 : 57–60 (1899)

99 Observations made on a tour in Canada. Can Inst, Pr n s 2 : 61–73 (1899)

05 Climatic features in the land surface. Am J Sc (4) 19 : 165–174 (1905)

Penck, Albrecht—Continued.

06 The relations of physiography to the other sciences. Cong Arts and Sc (St. Louis 1904) 4 : 607–625 (1906)

09 North America and Europe; a geographical comparison. Science n s, 29 : 321–329 (1909) J Geog 8 : 73–83 (1909) Scottish Geog Mag 25 : 337–346 (1909)

09a The antiquity of man (*abst*) Science n s 29 : 359–360 (1909)

Penck, Walther.

12 Studien am Kilauea, Hawaii. Ges Erdk Berlin, Zs 1912 : 180–203

Penfield, Samuel Lewis (1856–1906).

77 On the chemical composition of triphylite from Grafton, N. H. Am J Sc (3) 13 : 425–427 (1877)

79 On the chemical composition of triphylite. Am J Sc (3) 17 : 226–229 (1879)

79a On the chemical composition of amblygonite. Am J Sc (3) 18 : 295–301 (1879) Yale Bicen Pub, Contr Miner : 121–123 (1901)

80 On the chemical composition of childrenite. Am J Sc (3) 19 : 315–316 (1880) Yale Bicen Pub, Contr Miner : 124–125 (1901)

80a Analyses of some apatites containing manganese. Am J Sc (3) 19 : 367–369 (1880)

81 Analysis of jarosite from the Vulture mine, Ariz. Am J Sc (3) 21 : 160 (1881)

82 On the occurrence and composition of some American varieties of monazite. Am J Sc (3) 24 : 250–254 (1882) Zs Kryst 7 : 366–370 (1882)

83 Analyses of two varieties of lithiophilite (manganese triphilite). Am J Sc (3) 26 : 176 (1883)

83a On a variety of descloizite from Mexico. Am J Sc (3) 26 : 361–365 (1883)

83b (with **Brush,** G. J.) On scovillite, a new phosphate of didymium, yttrium, and other rare earths, from Salisbury, Conn. Am J Sc (3) 25 : 459–463 (1883)

84 On the occurrence of alkalis in beryl. Am J Sc (3) 28 : 25–32 (1884)

84a (with **Brush,** G. J.) On the identity of scovillite with rhabdophane. Am J Sc (3) 27 : 200–201 (1884)

85 Crystallized tiemannite and metacinnabarite. Am J Sc (3) 29 : 449–454 (1885) Yale Bicen Pub, Contr Miner : 130–133 (1901)

85a Crystals of analcite from the Phoenix mine, Lake Superior copper region. Am J Sc (3) 30 : 112–113 (1885)

85b (with **Dana,** E. S.) Mineralogical notes. Am J Sc (3) 30 : 136–139 (1885)

85c (with **Wells,** H. L.) Gerhardtite and artificial basic cupric nitrates. Am J Sc (3) 30 : 50–57 (1885) Yale Bicen Pub, Contr Miner : 134–137 (1901)

86 Brookite from Magnet Cove, Ark. Am J Sc (3) 31 : 387–389 (1886)

Penfield, Samuel Lewis—Continued.

86a (and **Harper,** D. N.) On the chemical composition of herderite and beryl, with note on the precipitation of aluminum and separation of beryllium and aluminum. Am J Sc (3) 32 : 107–117 (1886) Yale Bicen Pub, Contr Miner : 138–142 (1901)

86b (and **Sperry,** F. L.) On pseudomorphs of garnet from Lake Superior and Salida, Colo. Am J Sc (3) 32 : 307–311 (1886)

86c (and **Harper,** D. N.) On the chemical composition of ralstonite. Am J Sc (3) 32 : 380–385 (1886) Yale Bicen Pub, Contr Miner : 143–150 (1901)

86d Crystallized vanadinite from Arizona and New Mexico. Am J Sc (3) 32 : 441–443 (1886)

86e (with **Dana,** E. S.) On two hitherto undescribed meteoric stones [Utah and Cape Girardeau, Mo.]. Am J Sc (3) 32 : 226–231 (1886)

87 Phenacite from Colorado. Am J Sc (3) 33 : 130–134 (1887) Colo Sc Soc, Pr 2 : 141–146 (1887)

87a (and **Sperry,** E. S.) On the chemical composition of howlite ... Am J Sc (3) 34 : 220–223 (1887)

87b (and **Sperry,** F. L.) Triclinic feldspars with twinning striations on the brachypinacoid. Am J Sc (3) 34 : 390–393 (1887)

88 Bertrandite from Mt. Antero, Colo. Am J Sc (3) 36 : 52–55 (1888)

88a (and **Sperry,** E. S.) Mineralogical notes. Am J Sc (3) 36 : 317–331 (1888)

88b (with **Dana,** E. S.) On the crystalline form of polianite. Am J Sc (3) 35 : 243–247 (1888) Zs Kryst 14 : 166–172 (1888)

89 On the crystalline form of sperrylite. Am J Sc (3) 37 : 71–73 (1889) Zs Kryst 15 : 290–292 (1889) Yal Bicen Pub, Contr Miner : 157–159 (1901)

89a On some curiously developed pyrite crystals from French Creek, Delaware Co., Pa. Am J Sc (3) 37 : 209–212 (1889)

89b Crystallized bertrandite from Stoneham, Me., and Mt. Antero, Colo. Am J Sc (3) 37 : 213–216 (1889)

90 On spangolite, a new copper mineral. Am J Sc (3) 39 : 370–378 (1890) Zs Kryst 18 : 499–506 (1890) Yale Bicen Pub, Contr Miner : 168–175 (1901)

90a Crystallographic notes. Am J Sc (3) 40 : 199–207 (1890)

90b Chalcopyrite crystals from the French Creek iron mines, St. Peter, Chester Co., Pa. Am J Sc (3) 40 : 207–211 (1890) Zs Kryst 18 : 512–516 (1890)

90c Anthophyllite from Franklin, Macon Co., N. C. Am J Sc (3) 40 : 394–397 (1890)

Penfield, Samuel Lewis—Continued.

90d Some observations on the beryllium minerals from the Mt. Antero, Colo. Am J Sc (3) 40 : 488–491 (1890)

90e (with **Genth,** F. A.) On lansfordite, nesquehonite, a new mineral, and pseudomorphs of nesquehonite after lansfordite. Am J Sc (3) 39 : 121–137 (1890)

90f (with **Hidden,** W. E.) On hamlinite, a new rhombohedral mineral from the herderite locality at Stoneham, Me. Am J Sc (3) 39 : 511–513 (1890)

90g (with **Meyer,** Otto) Results obtained by etching a sphere and crystals of quartz with hydrofluoric acid. Conn Ac, Tr 8 : 158–165 (1890) Yale Bicen Pub, Contr Miner : 160–167 (1901)

91 On the chemical composition of aurichalcite. Am J Sc (3) 41 : 106–109 (1891)

91a (with **Iddings,** J. P.) The minerals in hollow spherulites of rhyolite from Glade Creek, Wyo. Am J Sc (3) 42 : 39–46 (1891)

92 Crystallographic notes. Am J Sc (3) 43 : 184–189 ; 44 : 381–389 (1892)

92a (and **Pearce,** S. H.) On polybasite and tennantite from the Mollie Gibson mine in Aspen, Colo. Am J Sc (3) 44 : 15–18 (1892)

92b (with **Wells,** H. L.) On herderite from Hebron, Me. Am J Sc (3) 44 : 114–116 (1892)

93 On cookeite from Paris and Hebron, Me. Am J Sc (3) 45 : 393–396 (1893)

93a Mineralogical notes. Am J Sc (3) 45 : 396–399 (1893)

93b On pentlandite from Sudbury, Ont., Can., with remarks upon three supposed new species from the same region. Am J Sc (3) 45 : 493–497 (1893)

94 (and **Pratt,** J. H.) On the chemical composition of staurolite and the regular arrangement of its carbonaceous inclusions. Am J Sc (3) 47 : 81–89 (1894) Zs Kryst 23 : 64–72 (1894)

94a (and **Howe,** W. T. H.) On the chemical composition of chondrodite, humite, and clinohumite. Am J Sc (3) 47 : 188–206 (1894) Zs Kryst 23 : 78–98 (1894) Yale Bicen Pub, Contr Miner : 218–230 (1901)

94b Contributions to the crystallization of willemite. Am J Sc (3) 47 : 305–309 (1894) Zs Kryst 23 : 73–77 (1894)

94c On the crystallization of herderite. Am J Sc (3) 47 : 329–339 (1894) Zs Kryst 23 : 118–130 (1894)

94d (and **Minor,** J. C., jr.) On the chemical composition and related physical properties of topaz. Am J Sc (3) 47 : 387–396 (1894) Zs Kryst 23 : 321–329 (1894) Yale Bicen Pub, Contr Miner : 231–241 (1894)

Penfield, Samuel Lewis—Continued.

94e (and **Kreider,** D. A.) Mineralogical notes. Am J Sc (3) 48 : 141–144 (1894)

94f Mineralogical notes. Am J Sc (3) 48 : 114–118 (1894) *In part,* Zs Kryst 23 : 262–264 (1894)

94g Anatas von Magnet Cove, Ark. Zs Kryst 23 : 261 (1894)

95 (and **Pratt,** J. H.) Effect of the mutual replacement of manganese and iron on the optical properties of lithiophilite and triphylite. Am J Sc (3) 50 : 387–390 (1895) Zs Kryst 26 : 130–133 (1896)

95a On some devices for the separation of minerals of high specific gravity. Am J Sc (3) 50 : 446–448 (1895) Zs Kryst 26 : 134–137 (1896)

96 (and **Forbes,** E. H.) Fayalite from Rockport, Mass., and on the optical properties of the chrysolite-fayalite group and of monticellite. Am J Sc (4) 1 : 129–135 (1896) Zs Kryst 26 : 143–149 (1896)

96a (and **Pratt,** J. H.) On the occurrence of thaumasite at West Paterson, N. J. Am J Sc (4) 1 : 229–233 (1896) Zs Kryst 26 : 262–266 (1896) Yale Bicen Pub, Contr Miner : 246–251 (1901)

96b On pearceite, a sulpharsenite of silver and on the crystallization of polybasite. Am J Sc (4) 2 : 17–29 (1896) Zs Kryst 27 : 65–77 (1896)

97 (and **Foote,** H. W.) On roeblingite, a new silicate from Franklin Furnace, N. J., containing sulphur dioxide and lead. Am J Sc (4) 3 : 413–415 (1897) Zs Kryst 28 : 578–580 (1897)

97a (and **Foote,** H. W.) On bixbyite, a new mineral, and notes on the associated topaz. Am J Sc (4) 4 : 105–108 (1897) Zs Kryst 28 : 592–595 (1897) Yale Bicen Pub, Contr Miner : 283–286 (1901)

97b (and **Foote,** H. W.) Note concerning the composition of ilmenite. Am J Sc (4) 4 : 108–110 (1897) Zs Kryst 28 : 596–597 (1897)

97c On the chemical composition of hamlinite and its occurrence with bertrandite at Oxford Co., Me. Am J Sc (4) 4 : 313–316 (1897) Zs Kryst 27 : 588–591 (1897) Yale Bicen Pub, Contr Miner : 287–290 (1901)

98 (and **Foote,** H. W.) On clinohedrite, a new mineral from Franklin, N. J. Am J Sc (4) 5 : 289–293 (1898) Zs Kryst 30 : 587–591 (1899) Yale Bicen Pub, Contr Miner : 291–296 (1901)

98a On pearceite, a sulpharsenite of silver, and on the crystallization of polybasite. Colo Sc Soc, Pr 5 : 210–224 [1898] (separate ed, 15 pp, 1896)

99 (and **Foote,** H. W.) On the chemical composition of tourmaline. Am J Sc (4) 7 : 97–125 (1899) Zs Kryst 31 : 321–352 (1890) Yale Bicen Pub, Contr Miner : 297–324 (1901)

Penfield, Samuel Lewis—Continued.

99a (and **Warren,** C. H.) On the chemical composition of parisite and a new occurrence of it in Ravalli Co., Mont. Am J Sc (4) 8 : 21–24 (1899) Zs Kryst 32 : 4–8 (1899)

99b (and **Warren,** C. H.) Some new minerals from the zinc mines at Franklin, N. J., and note concerning the chemical composition of ganomalite. Am J Sc (4) 8 : 339–353 (1899) Zs Kryst 32 : 227–242 (1900) Yale Bicen Pub, Contr Miner : 325–342 (1901)

00 On graftonite, a new mineral from Grafton, N. H., and its intergrowth with triphylite. Am J Sc (4) 9 : 20–32 (1900) Zs Kryst 32 : 433–445 (1900)

00a (and **Ford,** W. E.) Siliceous calcites from the badlands, Washington Co., S. Dak. Am J Sc (4) 9 : 352–354 (1900) Zs Kryst 33 : 513–515 (1900)

00b On the chemical composition of sulphohalite. Am J Sc (4) 9 : 425–428 (1900) Zs Kryst 33 : 523–526 (1900) Yale Bicen Pub, Contr Miner : 343–347 (1901)

00c On the interpretation of mineral analyses ; a criticism of recent articles on the constitution of tourmaline. Am J Sc (4) 10 : 19–32 (1900) Zs Kryst 33 : 527–541 (1900) Yale Bicen Pub, Contr Miner : 348–356 (1901)

00d (and **Ford,** W. E.) On some interesting developments of calcite crystals. Am J Sc (4) 10 : 237–244 (1900) Zs Kryst 33 : 513–522 (1900) Yale Bicen Pub, Contr Miner : 357–364 (1901)

00e On the chemical composition of turquoise. Am J Sc (4) 10 : 346–350 (1900) Zs Kryst 33 : 542–547 (1900) Yale Bicen Pub, Contr Miner : 365–370 (1901)

00f Contact goniometers and protractor of simple construction. Mineral Collector 7 : 97–103 (1900) Zs Kryst 33 : 548–554 (1900)

01 The stereographic projection and its possibilities from a graphical standpoint. Am J Sc (4) 11 : 1–24, 115–144 (1901) Zs Kryst 35 : 1–24 (1901)

01a (and **Ford,** W. E.) On calaverite. Am J Sc (4) 12 : 225–246 (1901) Zs Kryst 35 : 430–451 (1902)

01b (and **Pirsson,** L. V.) Contributions to mineralogy and petrography ... Yale Bicen Pub : 482 pp, N Y 1901

02 On the solution of problems in crystallography, by means of graphical methods based upon spherical and plane trigonometry. Am J Sc (4) 14 : 249–284 (1902)

02a (with **Hillebrand,** W. F.) Some additions to the alunite-jarosite group of minerals. Am J Sc (4) 14 : 211–220 (1902) Zs Kryst 36 : 545–554 (1902) U S G S, B 262 : 32–41 (1905)

02b (with **Wells,** H. L.) On a new occurrence of sperrylite [Wyoming]. Am J Sc (4) 13 : 95–96 (1902)

Penfield, Samuel Lewis—Continued.

03 Tables of minerals ... 77 pp,. New Haven, Conn., 1903 2d ed, 88 pp, N Y 1907

05 On crystal drawing. Am J Sc (4) 19 : 39–75 (1905)

05a (and **Jamieson,** G. S.) On tychite, a new mineral from Borax Lake, Cal., and on its artificial production and its relations to northupite. Am J Sc (4) 20 : 217–224 (1905) Zs Kryst 41 : 235–242 (1905)

06 On the drawing of crystals from stereographic and gnomonic projections. Am J Sc (4) 21 : 206–215 (1906) Zs Kryst 43 : 1–11 (1907)

06a (and **Ford,** W. E.) On stibiotantalite. Am J Sc (4) 22 : 61–77 (1906) Zs Kryst 42 : 334–350 (1906)

07 (and **Stanley,** F. C.) On the chemical composition of amphibole. Am J Sc (4) 23 : 23–51 (1907) Zs Kryst 43 : 233–260 (1907)
